

OUR PRODUCT IS UNITY

Path to Unity helps neighbors turn good ideas into action.

Ideas become stronger when the whole community can see them.

Neighbors can talk, ask questions, and vote privately.

Clear records help everyone see where community money goes.

Listening helps people understand each other, even when they disagree

Shared tools and equipment let more people take part.

Grants can help a good project get started.

People can speak with the representatives who serve them.

When a project does not work, we learn and try again.

When we work together, our community grows stronger.

Together, we make a difference.
